**Summary of reasons
for classification:**

The computer moving image file entitled *Preteen-(part 3) Real Hidden Camera-High School Teen In Girls Lockerroom Shower (29sec) (part 3).mpg* is classified as:
Objectionable.

The publication exploits the nudity of young persons by presenting a moving image sequence of a naked girl in her mid-teens who is filmed without her knowledge while showering. The title indicates that a sexual reading of the image is intended. The publication is in a medium that invites easy dissemination. It is highly likely that the girl's nudity is exploited with sexual intent in this context. Therefore the publication exploits the nudity of young persons in such a manner that its availability is likely to be injurious to the public good.

The classification of this publication interferes with the freedom of expression as set out in s14 of the New Zealand Bill of Rights Act 1990. This outcome is consistent, however, with Parliament's intention in the Films, Videos, and Publications Classification Act 1993 to limit the availability of publications that exploit the nudity of young persons.
